There's a dark Moon, without season
 Has no color and it's all out of phase
 I know it's up there, behind a cloud somewhere
 There's a dark Moon - I'm counting the days

CHORUS

And there's a space, where you used to be G Am
 There's a world, you left behind G Am
 There's a song I heard, hung on every word. Am7/F Fj7/g
 It said everything, now I want to sing Am7/F Esus4
 But there's no one home - nobody home Am Am9
 Last time - Nobody home, nobody home Am Am9 Am Am9

There's a dark Moon, over the river
 Silent - as it slowly drifts by
 It's like a mirror suspended and peaceful
 Perfect setting for saying goodbye

CHORUS INSTRUMENTAL CHORUS

Alt - there's a ship at sea and it's drifting free - there's no SOS just silent quest
 There's nobody home - nobody home.

See the dark moon, on the horizon
 Casts a shadow, over the land
 Leaves me thinking, of days to come
 So many things, I don't understand
