DON'T TEAR ME UP A CAPO 5

Life is rich, but it's way too short A D
Y make a lot of money, but you just want more Bm D
I don't need the pain, right here in my heart A D
I hate every minute when we're so far apart Bm D

A-D-A-D

It was love in a minute, it was love in a flash It brings me no pleasure, just a stab in the back It brings me no comfort, it brings me no peace A weight on my shoulder, it's a fatal disease

chorus

So don't tear me up F#m A D
I don't ever want to see your picture again Bm D
And don't poison my blood F#m A D
I don't ever want to see your face anymore Bm D

A-D-A-D

Gonna finish it quick, gonna finish it clean Don't wanna be bitter, I don't wanna be mean I feel like we're driving down a dead end street I've come so far I wanna crash the car, I wanna land right on my feet

chorus Bridge

ED A Bm D

But I dream of you constantly, you'll be my angel of light & in the dark rooms of sleeplessness, you'll be my lover each night...

Life is a bitch, it's way too short Unlike a politician it just can't be bought Think about the tenderness, and think about the craziness And if you ever wanna hate me come and stick a knife right in my chest

chorus
