

**FUNKY GOOD REASON \*\*\*\* E**

You don't know that since you left town  
tried to start again but nobody's around  
overdosing coffee and feeling kinda rough  
Gonna take that last train, I think had enough

**CHORUS**

And that's a funky good reason  
yes that's a funky good reason  
I've got a funky good reason  
To get my mind off you

I'm over done and over the top  
Walking round this town, I feel like I could drop  
And when the sun shines, I ought to make hey  
Every time I think about it - no damn way

**CHORUS****BRIDGE**

how may times I got to tell you  
just give some space  
how many days can I hold out for  
get me out of this place

**INSTRUMENTAL****CHORUS**

My brother wants to help, my sister's on the phone  
I can't decide if I want to be alone  
people hanging round trying to be good  
All I know is something here is boiling up my blood

**CHORUS X2 + ad lib on "That's a funky...."**
