

I BELIEVE IN LOVE G

Capo 5 G

Into: G G/F# Em Em/D A7 C

When we tried to rework all of this	G G/F# Em (Em/D)
Each to her rendition	A7 C
Painted ourselves in a corner	G G/F# Em (Em/D)
Lost for ideas blindly fishing	A7 C
For a compliment or kindness	D C
Just to bring us into view	D C
But you could not interpret me and I could not interpret you	G/F# E C G

D C D C G G/F# G/E C D

I remember that cold morning when the trees were black with birds
I tried to make out some connection
We were at a loss for words

After all that we've been through **D C**

I could not see giving up **D C**

Despite the picture of our coffee growing colder in the cups **G G/F# G/E
C D**

I want to say that underneath it all you are my friend **G G/F# G/E C G**
And the way that I fell for you I'll never fall that way again **G G/F#
G/E C D**

I still believe despite our differences that what we have's enough
Em Bm F C

And I believe in you and I believe in love **C D G**

So we went rolling on down through the years
Taking time off we could steal
Until the thief of things unreconciled
Stuck it's stick into the wheel
Now we're tumbling in a freefall
No one's gonna go unscathed
But it's not because you held back and its not how I behaved

I want to say that underneath it all you are my friend
And the way that I fell for you I'll never fall that way again
I still believe despite our differences that what we have's enough

I believe in you and I believe in love

There are avenues and supplements and books stacked on the shelf
Labyrinths of recovery in search of our best self
But most of what will happen now is way out of our hands
So just let it go and see where it lands

I want to say that underneath it all you are my friend
And the way that I fell for you I'll never fall that way again
I still believe despite our differences that what we have's enough
I believe in you and I believe in love
I believe in you and I believe in love
