

## I SHALL BE RELEASED

*Intro = [A Asus4] repeat till vocal*

They say everything can be replaced      **A Bm**  
Yet every distance is not near      **C#m E A**  
So I remember every face      **A Bm**  
Of every man who put me here      **C#m E A (A4 A)**

### *Chorus*

I see my light come shining      **A Bm**  
From the west unto the east      **C#m E A**  
Any day now, any day now      **A Bm**  
I shall be released      **C#m E A**

They say every man must need protection      **A Bm**  
They say every man must fall      **C#m E A**  
Yet I swear I see my reflection      **A Bm**  
Some place so high above this wall      **C#m E A (A4 A)**

### *Rpt Chorus*

Down here next to me in this lonely crowd      **A Bm**  
Is a man who swears he's not to blame      **C#m E A**  
All day long I hear him shout so loud      **A Bm**  
Crying out that he was framed      **C#m E A**

### *Rpt Chorus*

Any day now, any day now      **A Bm**  
I shall be released      **C#m E D A**

*Original Intro = Rundown couplet start x x 5 x 5 x to A*
