

THORN IN MY PRIDE

Key = G capo 4 (=B) x x 3 0 3 3 chromatic down on 4th string

Wake me when the day break Show me how the sun shine
Tell me about your heartache Who could be so unkind
Do you dream to touch me And smile down deep inside
Or could you just kill me, hey
It's hard to make up your mind, sometimes
My angels, my devils, a thorn in my pride **X 2 – riff X2**

Are you wanting inspiration You spill your secrets on me
Then you tell me with a whisper Of things that will never be
Do you hear me breathing Does it make you want to screaming
Did you ever like a bad dream? Hey, sometimes life is obscene

My angels, my devils, a thorn in my pride **X 4**

B part

Lover cover me with your sleep
Let your love light shine, let it shine
Lover cover me with a good dream
Oh, let your love light, oh let your love light shine

Solo > gospely piano bit

Oh, I want to know, do you ever want to let it shine
Do you ever want to let it shine, baby
Your love light, your love light, listen

Let your love light shine, let it shine] **X 3**

Angels, my devils, in the thorn in my pride
