

TRIAL BY FIRE A**1**

A D
 You thought you had a choice To live at the top or down on the street
 A D A
 Nobody heard your voice, As you roamed round with your aching feet
 G D A
 Ain't it a shame Nobody else for you to blame, for that

CHORUS

G C G C
 Trial by Fire A fight between need and desire
 Am D G C
 No use to pray for rain Listen now they're calling your name for that
 G C Am D
 Trial by fire So little time remains
 D A
 And you can't put out the flames

2

A D
 Thought you were in the lead But take a look in that rear-view mirror
 A
 You give so much until you bleed
 D A
 And all the time, think that you're the winner
 G D A
 But they call your name From the passing lane

CHORUS**solo****3**

A D
 Come on baby, take a look, make a choice of direction
 A D A
 Take a leaf from my book No guarantee of satisfaction
 G (D)
 No need to shout
 D A
 I can, I can't get you out - of this

CHORUS X 2
