

When the Well's Gone Dry

D D G/F DD G G/F DD A G/F D

Can't drink no water, when the well gone dry

Can't drink no water, when the well gone dry

Ain't it just like that woman, to run off with another guy

Dying of thirst here, won't you lend a helping hand

Dying of thirst here, won't you lend a helping hand

No way to treat a dog, no way to treat your lovin' man

Don't want no redemption, the devil lead me straight to hell

Don't want no redemption, the devil lead me straight to hell

Lord that evil woman, she done gone and cast her spell

Solo

Won't you tell me where she going, little girl don't you lie

Won't you tell me where she going, little sister don't you lie

When I catch that ramblin' woman, gonna shoot her right between the eye

Can't drink no water, when the well gone dry

Can't drink no water, when the well gone dry

Lord my little baby, she gonna go and have to die
